

CHANDRABHAN SINGH

BI Manager & Digital Architect

Business Intelligence | Financial Analytics | Digital Transformation | Operations Strategy

Noida, India | +91-7017241878 | chandrabhansingh789@gmail.com

EXECUTIVE SUMMARY

Analytics and Business Intelligence leader with 13+ years of progressive experience spanning enterprise BI architecture, financial analytics, and operations strategy at Microsoft, Info Edge (Naukri.com), and BYJU'S. Proven track record of building and leading high-performing analytics teams, architecting enterprise-scale Power BI ecosystems (65+ dashboards across two organizations), and delivering measurable business impact including INR 300 Cr+ in revenue influence and 55% reduction in reporting turnaround time. Skilled at translating ambiguous business problems into analytical frameworks, defining KPIs and OKRs, and presenting data-driven insights to VP and Senior VP-level stakeholders across multi-country regions.

CAREER IMPACT AT A GLANCE

- **INR 300 Cr+** in measurable revenue impact delivered through financial modelling and strategic analytics
- **65+ enterprise Power BI dashboards** architected and governed across Microsoft and Info Edge, spanning 4+ business verticals and multiple cloud solution areas
- **55% reduction** in reporting turnaround time at Microsoft through end-to-end automation and self-serve dashboard design
- **13+ years** of progressive leadership in Data Analytics, Business Intelligence, and Financial Analytics
- **6-7 direct reports** managed, mentored, and developed across two organizations, owning hiring and performance management
- **Weekly executive readouts** delivered to Sr. VP, Asia (India, ANZ, ASEAN, Greater China, Japan, Korea) on Target, Budget & Forecast performance

PROFESSIONAL EXPERIENCE

BI Manager & Digital Architect | Sonata (Microsoft India Pvt Ltd)

Aug 2026 - Present

Sales Planning & Excellence — Finance & Operations Analytics

- **Architected and governed a 30+ dashboard Power BI ecosystem** spanning Target, Budget & Forecast (DBF, PBO) and variance reporting (VTB, VTF, VTO, CPC and QPC) across Cloud solution areas, including Copilot consumption, Azure, M365 Copilot, AI Workforce Cloud, AI Business Process Cloud, Security, ISD, Support, and MACC.
- **Reduced reporting turnaround time by 55%** through end-to-end automation and self-serve dashboard design, cutting manual effort across the Data Analyst team and accelerating leadership decision cycles.
- **Delivered weekly Target, Budget & Forecast readouts to the Sr. VP, Asia** (India, ANZ, ASEAN, Greater China, Japan, Korea), flagging variance trends across AI and Non-AI solution areas to support timely regional planning decisions.
- **Led a team of 6 Data Analysts** as direct reports, owning hiring, performance management, and career development.
- **Directed the team's rollout of Copilot-based reporting and consumption-tracking automation**, reducing manual analysis effort across Target/Budget/Forecast workflows.
- **Partnered cross-functionally with Sales, Finance, and regional leadership** to standardize DBF/PBO reporting definitions and cadence across the Asia region.

Data Analytics Manager | Info Edge (India) Pvt. Ltd. (Naukri.com)

Nov 2022 - Aug 2026

Business, Finance, and Operations Analytics | GCC | Forge | Consultant Services | Naukri Expert Assist

- **Architected and governed an enterprise Power BI ecosystem** enabling real-time decision-making for CBO, CTO, and Business Heads across the organization.
- **Standardized data definitions, KPI frameworks, and reporting cadence** across the organization, enabling self-serve analytics and significantly reducing ad-hoc reporting requests related to revenue, Target, Budget and Forecast.

- **Delivered INR 300 Cr+ in measurable revenue impact** through financial modelling, revenue forecasting, churn reduction strategies, and growth analytics.
- **Spearheaded analytics strategy across 4 key verticals** — GCC Business, Forge Business, Consultant Services, and Naukri Expert Assist — aligning data roadmaps with organizational growth objectives.
- **Translated business problems into analytical frameworks**; defined OKRs and success metrics for all major initiatives.
- **Owned Customer Success Management (CSM) analytics**, monitoring and improving NPS, CSAT, Customer Effort Score (CES), On boarding Completion Rate, First Response Time (FRT), Product Adoption Rate, and Customer Health Score.
- **Established enterprise data governance** covering data quality, integrity, validation, data dictionaries, and standards across all business units.
- **Led cross-functional collaboration** with CSM, Finance, Product, and Engineering teams, influencing strategy without direct authority.
- **Managed, mentored, and developed a team of 4-7 data analysts**, overseeing hiring, performance reviews, and career growth planning.

Assistant Manager - Analytics | BYJU'S (Think and Learn Pvt. Ltd.)

May 2021 - Nov 2022

Business Intelligence, MIS Automation, and Customer Analytics | EdTech Sector

- **Reduced MIS reporting turnaround time by 25%** by automating daily, weekly, and monthly reporting workflows, freeing analyst bandwidth for strategic work.
- **Deployed a multi-tool analytics stack** — SQL, Python, Power BI, Tableau, and Excel — enabling data-driven decision-making at scale.
- **Redesigned reporting databases and data pipelines**, improving data accuracy, reliability, and consistency for enterprise-wide consumption.
- **Generated actionable customer engagement, retention, and lifecycle insights**, directly influencing product and growth strategies in partnership with business stakeholders.

Data Analyst | JSG Innotech Pvt. Ltd.

Dec 2017 - May 2021

Data Analysis, Warehousing and Process Optimization

- **Built analytical models and ETL pipelines** for operational reporting and business performance tracking using star schema and dimensional modelling.
- **Developed and maintained dashboards and MIS reports**, supporting data-driven leadership decisions across business functions.
- **Contributed to Master Data Management (MDM) and data warehousing initiatives** using SQL, Google BigQuery, and PostgreSQL.

Sr. MIS Executive | TVS Motors Pvt. Ltd.

May 2015 - Dec 2017

MIS Reporting, Sales Analytics and Dealership Operations

- **Managed MIS reporting and sales analytics** for regional dealership operations; promoted to Sr. MIS Executive for consistently high-quality and timely delivery.
- **Built Excel and VBA-based reporting tools** that improved visibility into sales targets, inventory levels, and operational KPIs.
